

AATA PLANT / FLOUR MILL PLANT

SABOO SUNSTONE FLOUR MILL PLANT is based on modern day techniques, principles and an extensive experience of above 50 years. This machine is put together to best fit the international market standards and delivers guaranteed quality.

The plant consists of:

- Flourmills
- Flour Screening Machine
- Pneumatic Conveyer
- Cyclone
- Air Lock
- Air Filter

The working of the plant starts with manual feeding of grain into the mill's feeding hopper after which the complete process is automatic to ensure exceptional hygiene in flour production. The plant consumes minimal utilities, electricity, involves low maintenance cost and is easy to operate.

We Manufacture Automatic Flourmill Plant upto 5000 MT per Hour.

Specifications:

S.No.	Model	Output/Hr.	HP/req.	Space Req. Mtr.
01	SD 500	300Kg.	20	2x5
