**POWERFUL  
PERFORMANCE**

**SUPERIOR  
QUALITY**

With over 60 years of experience in manufacturing, we are the finest and most progressive induction motors manufacturers in Rajasthan, India.

With **PUKHRAJ Induction Motors** you are guaranteed top quality AC motors, made with robust tested sheets, graded cast iron, prime stamping, dynamic balanced rotor and high-grade copper wire. Being curated by a team of highly qualified professionals with optimum technology and R&D as per international standards, suitable for all applications.

**PUKHRAJ** induction motors are available in SIC70, SIC100, SIE100 models.

अन्तराष्ट्रीय मानकों से निर्मित  
पुखराज® मोटर्स  
चक्री, ग्राइंडर, कुट्टी मशीन, पानी पम्प  
इत्यादी के लिये सर्वश्रेष्ठ पसंद है

PRODUCT	PUKHRAJ MOTOR*	OTHER MOTOR	BENEFITS*
Bearing	NBC or Equivalent	Chinese/Local	NBC bearings are known for long life and best load bearing capacity.
Grade of Stamping / Steel	CRNO/Prime	Decarburized Scrap Steel	Prime steel is the best grade of stamping used in motors; less energy consumption; efficiency of motor increases.
Centrifugal Clutch	Heavy Duty	Local centrifugal switch	The most important part of the motor if this fails, the motor fails/burns. Hence, we use heavy duty and proven clutch.
Thermal Overload Protector (T.O.P.)	Hi-quality and quick response TOP with manual reset option	NA	TOP trips the motor when overloaded or over heated. It can be reset manually.
Efficiency	>90%	<70%	Greater Efficiency; Better Results
Dynamic Rotor Balancing	Yes	No	Rotors are dynamically balanced to give smooth operation life long.
Insulation Class	F Class	B Class	Better insulation gives better efficiency and highest heat resistance.
Packaging Material	Corrugated Box with HDEP Liner	Corrugated Box	Waterproof packing box ensures safe transportation.
