

**Sunstone** introduces **Emerald Mills**, a series of vertical & horizontal models based on most modern principles to meet the demands of grinding. Robust in construction, with enclosed bearings, fine mesh control & large shaft for rigidity, they are suitable for wheat, barley, beans, cocoa, dry maize & soft minerals etc.

**Emerald mark emery mill stones** are made from emery and selected abrasive grains, which have proved their outstanding grinding power.

\*As improvement and designs are constantly being made the specifications can be changed without notice.

**Emery Mill Stone**

We also manufacture agricultural water pumps, cheff cutters, rotary oilmills etc.

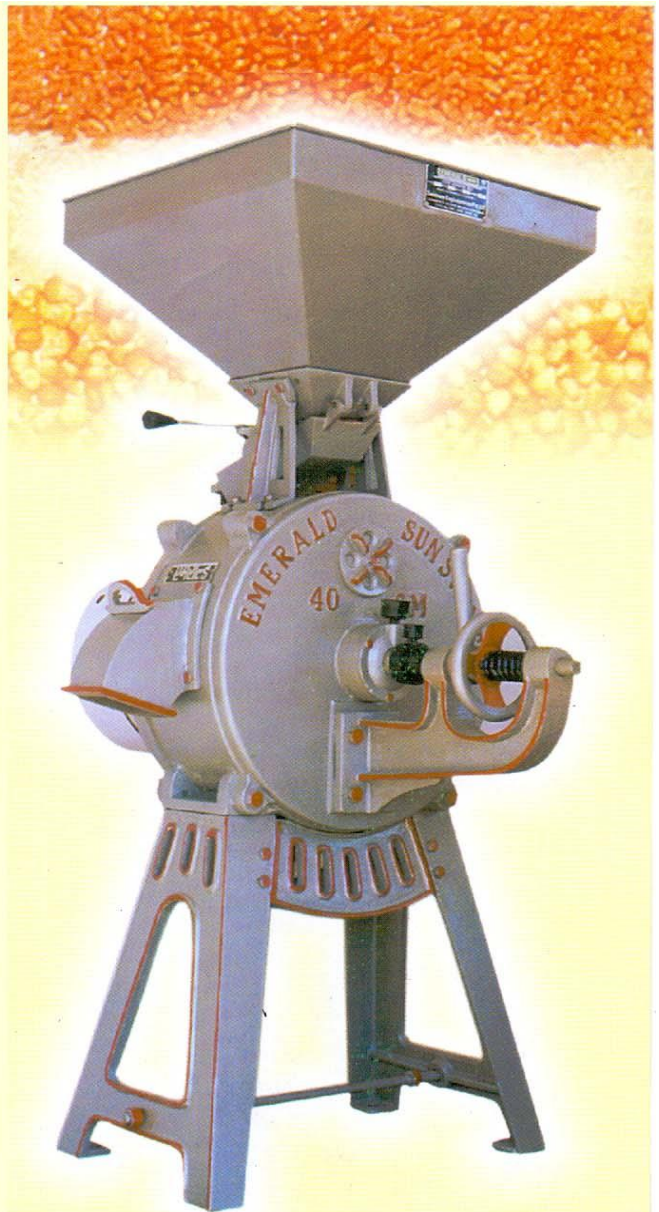

Manufacturers & Exporters :
